Project Requirements for Human Body Systems Research

Step One: Topic Selection

○ Group Members Names: _____

○ Research Topic _____

Step Two: Locate and Evaluate Sources

○ Website #1 + Website Evaluation Form

○ Website #2 + Website Evaluation Form

○ Print Source + Print Evaluation Form

*Make sure to use the list of science websites and finding print resource tips (handout)

Step Three: Gathering Information

○ Answered all body systems research questions

○ Used note taking sheet to record answers

Step Four : Creating a Glog (Digital Poster)

○ Included researched text

○ Used at least one audio clip

○ Used multiple images of body system to include 1 labeled diagram

○ Use of video clip is optional

A "Glog" can be more than one page so use space as needed to ensure all required content is included.

Step Five: Cite your sources!

○ Use online citation maker to produce citations

○ Copy and paste citations onto bottom of poster

Step Six: Poster Session

○ Present posters to classmates, teachers and parents
